

Give Them Peace Prayer

Lord, Life brings us ups and downs every day and for our doctors, it's no different. Apart from the successful stories, they also watch their patients take their last breath, they break the bad news to loved ones, and they give discouraging reports to patients. I pray that you may give them the strength to deal with the emotional roller-coaster. Give them peace. Give them hope despite the failed treatment options they offer. Let them face the next day with smiles on their faces. Amen.
